For prices, we took the cost of an American Airlines flight plus one checked bag to be the baseline, since both Amtrak and Greyhound offer at least one free checked bag as part of their service. We looked at trips departing on November 24th and returning on November 28th. If a trip arrived after Thanksgiving morning, destination time, we declared it to not an valid option, likewise if a trip went across the ocean, it was also declared not an option. Especially with Greyhound, if there was a big difference between the time it took to arrive and the time it took to return, we estimated a time in the middle.
